Philadelphia, June 9.-Philander C. Knox, attorney general of the United States, was selected today to fill the seat in the United States senate made vacant by the death of M. S. Quay. He will accept and serve by appointment of Governor Pennypacker until March 4, the date of the expiration of the late sension's commission. Unless political complications should arise as a result of today's action, he will be elected for the full term by the legislature which meets in January. It is Isture which meets in January. The selection of Attorney General Knox came as a surprise to the poli-ticians of the state. Directly after Senator Quay died Knox's name was among those mentioned for the vacan-cy, but as no one came forth to sup-port it, very little was heard of his candidacy during the past week. His name was not considered by United States Senator Penrose, who, as chairman of the Republican state committee, along with Israel W. Durham, the

Washington, June 9.—Just before Attorney General Knox left Washington a few days ago he called on the president and told him that he had been tendered the appointment of United States senator, to succeed Mr. Quay, and that if the president was willing he would accept. The president told him that while it was true that probably no other man in the country would quite fill the position of attorage general as he had filled it, yet he believed that his services in the senate would be exceptionally valuable, not only to the state of Pennnsylvania, but to the whole general The Daily Mail's correspondent at Tien Tsin learns that 10,000 Russian infantry with several batteries of article at the June at Poelnichia, twelve miles south of Kai Chau, and thirty-five miles from New Chuang.

London, June 9.—During the discus-sion of the foreign office estimates in the house of commons today Sir Charles

United States to act with Great Britain
in the matter, pointing out that the
United States was responsible for the
creation of the Congo Free State, and
saying he believed that such co-operation would be pregnant with great results. Sir Charles asked if in the face

APPEAL TO UNCLE SAM.

England Wants to Co-operate in the Congo Free State.

St. Petersburg, June 9.—All Japanese movements are interpreted here as caused by an attempt to hamper as much as possible whatever movement General Kuropatkin may be making to help Port Arthur. Not only have the Japanese bombarded the west coast of Liao Tung peninsula, where the railway runs close to the shore, making feints of debarkation, but General Kuropki has assumed the offensive eastward. He has sent an overpoweringly strong column that drove out the Russians from a fortified position at Saimmitze, twenty miles northwest of Feng Wang Cheng, inflicting a loss of 160 men. The authorities say that they are without information concerning the fight at Saimatze beyond the official dispatch that was made public tonight, but that the Russian withdrawal was quite in accordance with General Kuropatkin's prearranged plan, although the rlussian losses indicated stubborn fighting. Military criticis profess to be not altogether certain whether General Kuroki's movement means a real advance or is simply a feint to distract Russian attention from Port Arthur, but they incline to the latter view.

This is especially the case with the news from Kwan Tung province where it is pointed out, the Boxer rebellion of 1900 to was started at about this time of the year.
